

I currently listen to K-Love on 88.1 which is a very good station. It is a Christian station and therefore I do not have to worry about what songs are being played or that the words will be offensive to anyone listening. I believe we need stations like this with a positive and encouraging message. It is primarily music which could be enjoyed by anyone. It would very sad if it were displaced by an LPFM which broadcasted other programming.  
Thank you. Judy Anderson
